

# MERLIN PLUS - GARAGE & GATE REMOTE PROGRAMMING

1. Hold down any button on the new remote (do not let go).
2. Locate the orange 'Learn' (Sometimes abbreviated to 'LRN') button, or any button labeled 'Learn' on the garage door opener/receiver box.
3. Whilst still holding down any button on the new remote, push and release the 'Learn' button on the opener/receiver box.
4. Release the button on the new remote.

Your new remote is now programmed.

(This will not affect existing remotes)
